An Elegant Touch of Class

Stephany Talbot

... Prom Time ...

Yolanda Stancil, Chris Loiseaux, Jade Hawkins

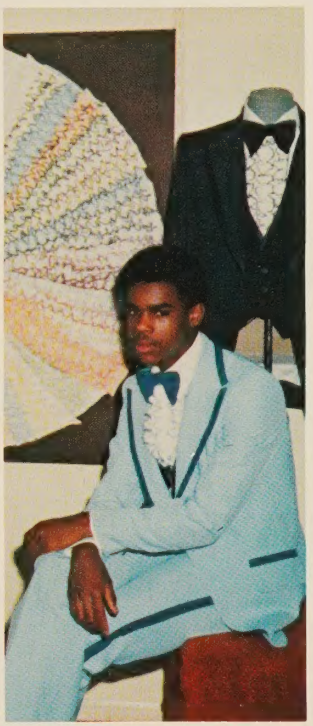

Jeffery Merritt, Glen Black

Just think next year I'll have a ring just like that.

None finer!

What is Excellence? It is the fact or condition of surpassing, over or above. Our theme is, A NEW DECADE ... an ELEGANT TOUCH OF CLASS! It motivates each of us to achieve his own personal mark of excellence.

James B. Conant: instructs us on this subject when he writes, "Each honest calling, each walk of life, has its own elite, its own aristocracy bases on excellence of performance".

We have pressed towards that mark and given it our best. We have come together in unity to run our race and achieve our goals.

As we run this race we may stumble and we may fall, but as we depart a new decade begins opening the door to beginnings and "Eternal Success". Editor-in-Chief
Yolanda L. Stancil

We will be the markers
of eternal success.
With class and style,
we will do better than the rest.

Our touch is elegant
and oh so effective!
We shall always be strong
looking through broad perspectives.

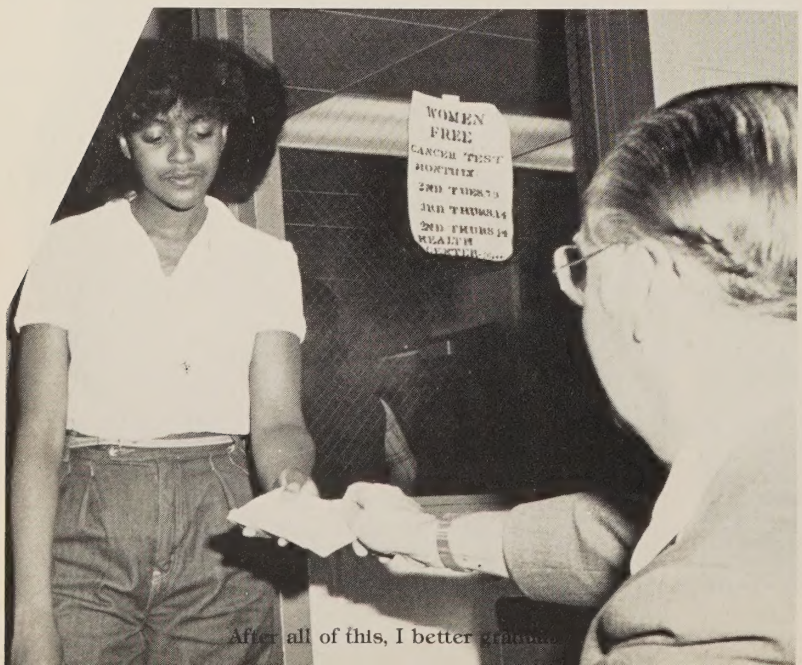

We will achieve our goals
to their fullest extent.
And never fall short
nor shall we quit.

But if for some reason
we should be delayed.
We know that with help
and much self-confidence

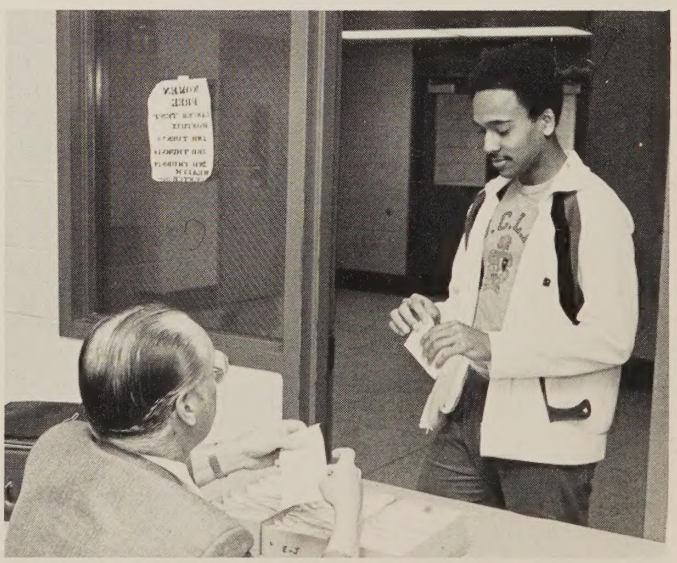

We shall again make our claim.

We will be the markers of
eternal success.
We shall always do our best.*

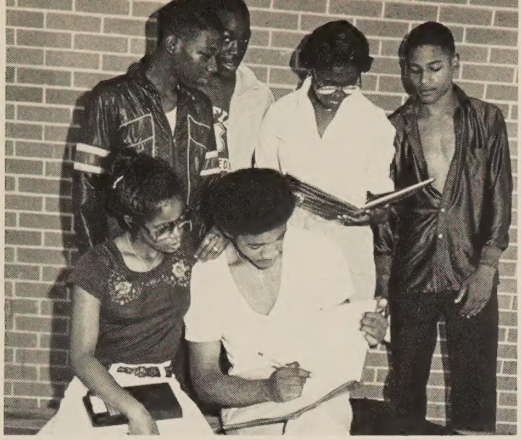

*Hassana B. Haqq "80"

After all of this, I better graduate.

She'd better like this ring, it cost me a fortune.

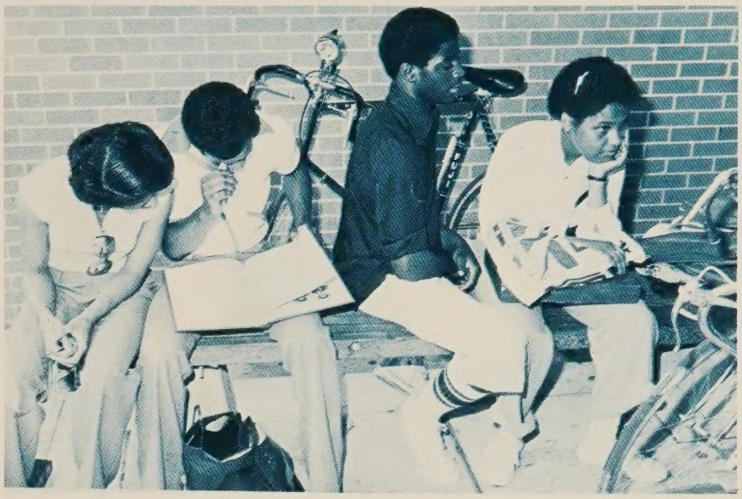

Here's my signature, I'll be famous someday ... I hope!

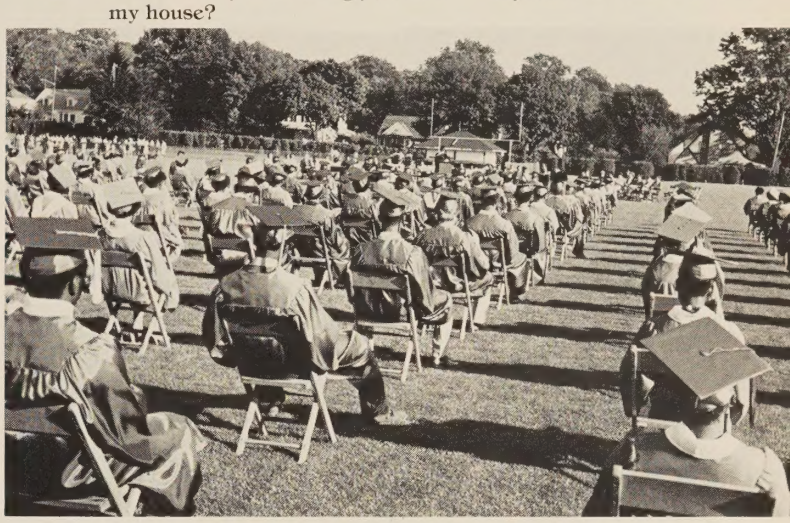

They gave me the wrong size!

This is a very interesting yearbook ... why don't we look at this at my house?

I'm sorry babe I didn't mean to give them your yearbook.

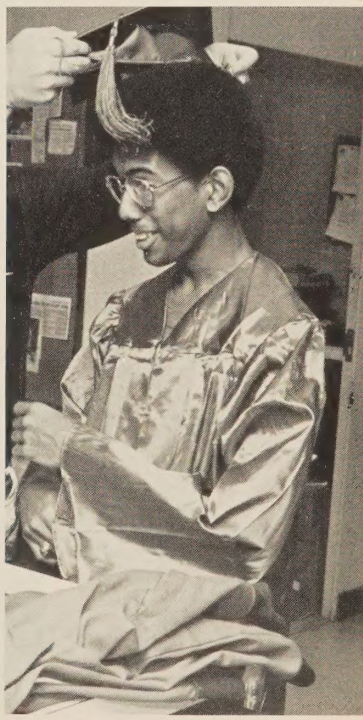

You've had that book so long you could have written it yourself.

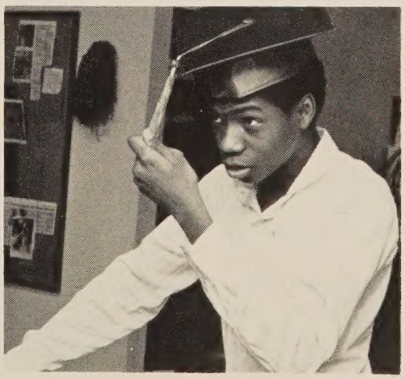

Our handsome seniors ... cough, cough!

My head is too big for this one too!

Hey, what's this thing?

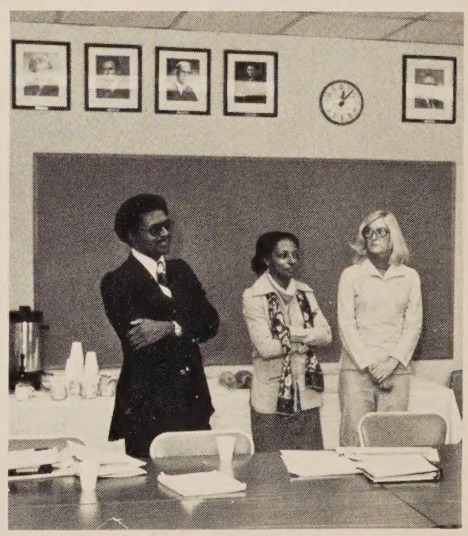

Left to right: H. Thompson, L. Howard, R. Carter, G. Greene, C. Guy, H. Haqq, J. Springer, O. DesVignes, Mrs. Bell, A. Bell (Tony), Y. Stancil, H. Henderson, Director of Cerebral Palsy Center. Class officers, the advisor, and principal share in the happy moment.

Union County Cerebral Palsy Directors chat with Tony, his mother, Gary Greene, Student Council president, and Mr. Henderson who made a large donation from McDonalds' of Plainfield.

THE HUMAN TOUCH

Along with "AN ELEGANT TOUCH OF CLASS," the CLASS of "80" has displayed the true meaning of "THE HUMAN TOUCH." Operation Wheelchair took time and money, but it was for a good reason, making it all worthwhile.

As we proceeded with Operation Wheelchair our thoughts were of making some one else happy. Our goal to show the community that we do care about others was met. Here we expressed our appreciation just for the opportunity to do it.

Seeing Tony's face when we presented the wheelchair to him was a delight in itself!

ACADEMICS

Another day, another lecture.

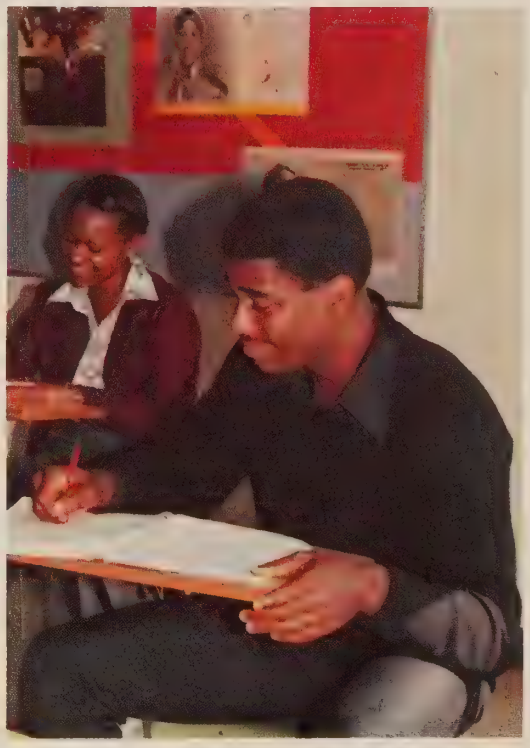

$HC_2, H_3O_2 + H_2O \rightarrow H_3O+ + C_2H_3O_2$ — . . . is that clear?

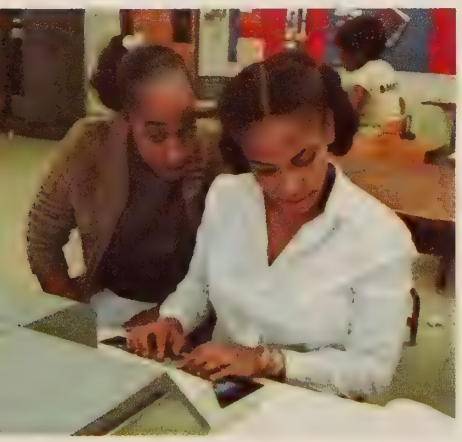

My first day and I'm a pro.

I knew I should have studied.

Man, this is a breeze!

I thought this was computer dating service.

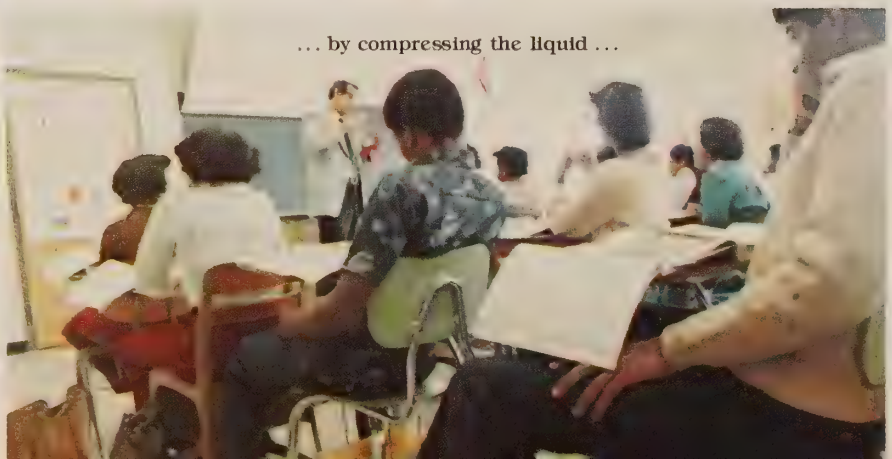

But the pool can't go into the living room!

Hmmm, Othello marries Desdamona and . . .

. . . by compressing the liquid . . .

We only have five more minutes to finish this exam.

Alias Wang-Lung? Conquerer of the Good Earth.

Just think, after this is over I will be beautiful.

I've got to get this done before the bell rings.

Is it collagenous fibers or intercalated discs?

I knew I could get in without a pass!

I wish I could have this car.

Together we will make an academy award winning film.

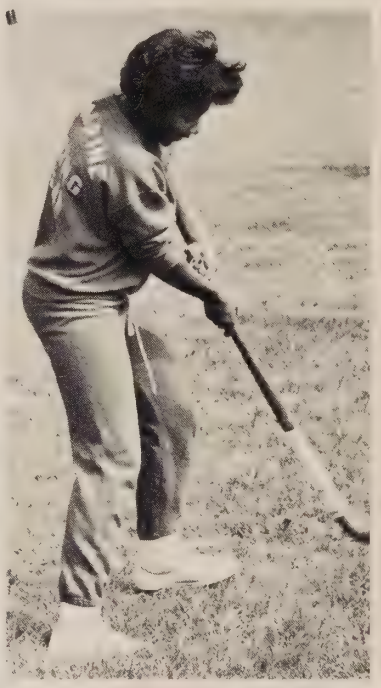

Hey, this is broken.

Better hurry up to lunch; I'm starving to death!!

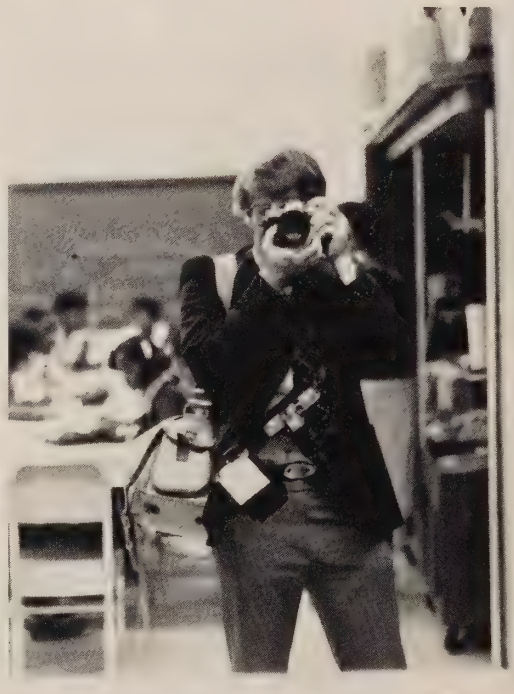

Could somebody please explain how this thing works?

Oops, I missed that stupid ball.

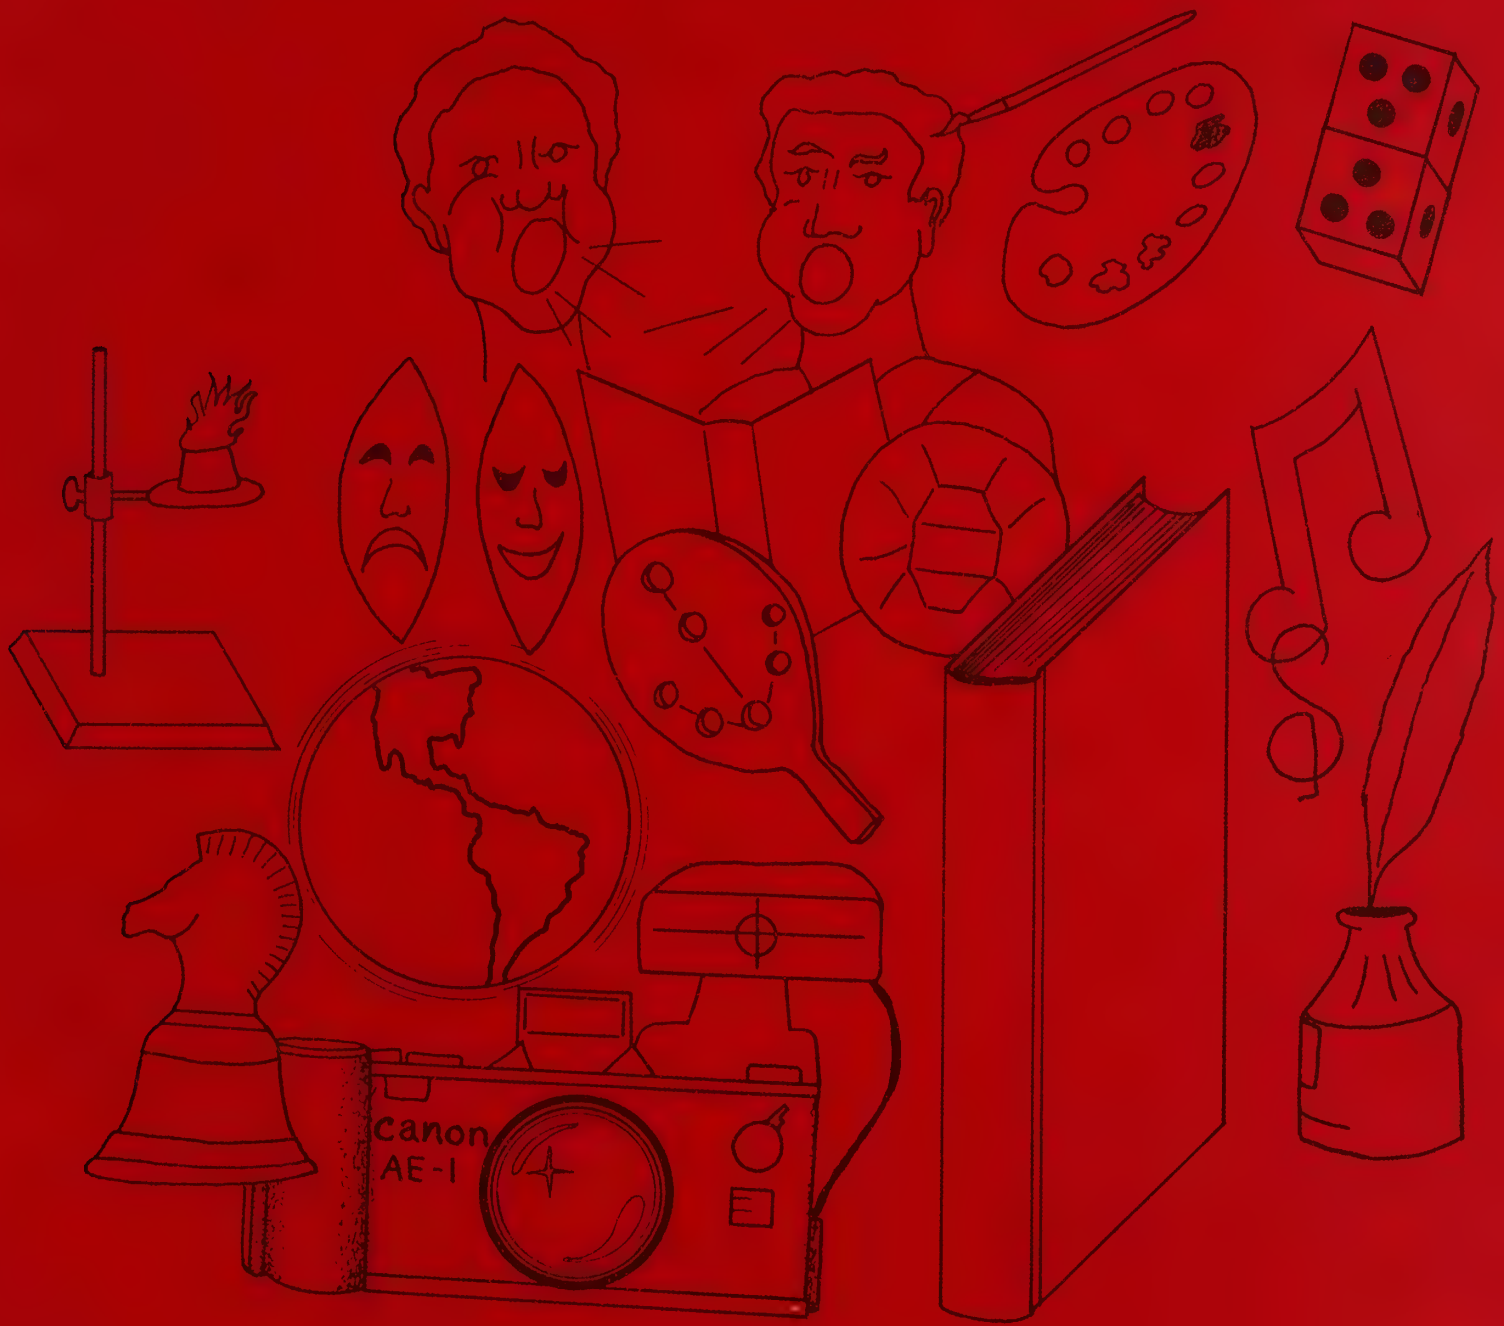

Hush little baby, don't say a word.

Don't be so conceited.

Earth Club

We Are Really Accomplishing A Lot

Are You Fishing For Piranhas?

Since its origin 8 years ago, the EARTH Club has been one of the most responsible organizations in Plainfield High School. The purpose of the ecology group are threefold: 1. to actively help restore our environment 2. to prevent further deterioration of our resources 3. self-education and awareness. Our program is activity oriented involving field trips, field studies, winter campout, spring campout, recycling and aquatic studies. The success of the club is illustrated by its many awards and commendations. It has been recognized by the Environmental Protection Agency (EPA), Daily Journal, Courier News, WERA, the Mayor's office, and other state and local organizations. Any responsible students who wish to participate in an active, enjoyable and meaningful organization are always welcome to join.

SCHEDULE OF EVENTS

1. Concert February 7, 1980.
2. Jazz Band Raising money to go to Berkley College of Music (April 9, 1980).
3. Senior Citizens Home Pfld. in May.
4. Playing at other various centers and organizations.
5. Recognition assembly in June.

The jazz ensemble is in its second year. They have played at many organizations throughout the state. This group of young talented men has been playing together since 1977, not only they have performed in the jazz ensemble, but also on bans outside of school. Our saxophonist RICHARD LYNCH has definitely decided to study music and phychology in college. He anticipates a career as a performing musician.

"This budding Quincy Jones" also has visions of composing and arranging for national T.V.

CARY POTTS, bass player, intends to teach instrumental music in addition to performing and arranging. Drummer, JAMES MACK, expects to enroll in Kean's voted music department. He enjoys working with visual effects of stage presentations. The percussionist DAVID LEACH plans to take several music courses in college also. He too has had experience working with stage production.

STANLEY STEPNEY, the pianist, is also college bound. Undoubtedly, some choir will benefit from his talents.

VINCENT ROUNTREE, saxophonist, plans to couple his music with a career in chemical engineering.

DAVID TRAWICK, saxophonist is probably bound for a slot in a big college band performing at half-time on national T.V.

The "last of these Mohicans," includes sophomore, JOHN RABY, who really plucks ... picks ... and ... strums the guitar. Already his creativity looms large!

MATTHEW JOHNSON, trumpeter, and youngest of the group is expected to continue. He represents the other part of the core for the future Jazz Ensemble.

THE DON'T CHEAT YOUR BODY CLUB

This club was founded several years ago by the great body building enthusiast Milt "Squat Rock" James. The club now thrives under the direction of Robert Cavaliere and promotes the sport of body building, along with all the other ideals which made this country great. The club motto "no pain, no gain" will be remembered metaphorically by these stalwart young men, as they compete on that great universal gym of life.

The Milestone "Think Tank" puts it all together.

Master mind, at work.

3 M ... "MAGNIFICENT MILESTONE MEMBERS" is perhaps the best description for the dedicated young people who have produced the 1980 Milestone.

Giving up school holidays or weekends to put in long hours of work became the rule; instead of the exception. Yes, occasional snacks and planned parties did "ease some of the pain."

The quiet, but firm leadership of Editor-in-Chief, YOLANDA STANCIL, constantly motivated the group. DARON RIVERS, Layout editor frequently dazzled us with his on-the-spot creativity.

The scholarly approach of Special feature and Sports editor, HASSANA HAQQ challenged the staff to try new approaches. JESUS TAVAREZ and CLARENCE EDWARDS input contributed much to her area.

Faculty editor, RON CARTER, was imported from the Big Apple last year. Fortunately, he passed our crash course on "who teaches what." MARK WALKER put in a lot of time supporting Ron. Art editor, CRAIG GEORGES was dubbed "the invisible man", because he preferred to work in solitude. His cool demeanor prevailed even while we sent him "back to the drawing board." His support cast included CHARLES BRASWELL, TOD RICHARDSON, and DARON RIVERS.

The tables were turned when JEFF MERRITT and CRYSTAL DAVIS served as Underclassmen Club Editors and both were grateful for the aid of Krystal Ferguson, Adrienne Armstrong and Kim Howard.

Academic editor JACKIE WILSON was aided by Todd McAllister.

TERRI HALSEY 'tended the typing pool; ably assisted by Christine Guy and Joyce Rosa.

The volleyball club has been divided itself into two groups each session and played real games. Boys and girls of mixed sizes have been playing against each other with good sportsmanship, increased skills and sheer enjoyment. Every student of every grade level is having a wonderful time in this fun club.

PEP SQUAD

One of the newest clubs at the high school this year is the pep squad. Approximately fifty young ladies with lots of pep and loads of school spirit, assisted the cheerleaders in rousing the basketball fans and cheering our team on to victory. Under the direction of Mrs. Pat Harper, Mrs. Pat Paylor and Ms. Terry McDonald, the squad received recognition for their stupendous school spirit.

Cheerleaders, Twirlers, and Pom Pom Squad

Pom-Pom Squad

The pom-pom squad is one of the supportive units of the marching band. The young ladies, under the direction of Mrs. Pat Harper (advisor), devise pom-pom routines for the band's half-time shows, parades and band competitions. This year the squad participated in the collection of canned goods for Thanksgiving baskets to be given to needy families in the community. They also participated in many fund-raising activities. The captains this year are Lynn Yancey and Selena Marshall.

CHEERLEADERS

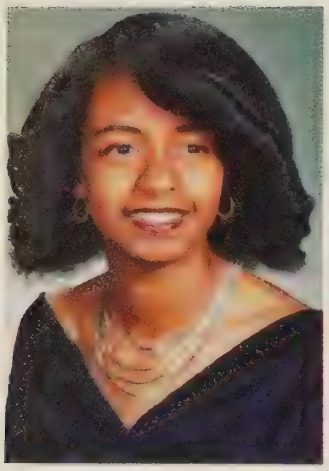

The Cheerleaders of P.H.S. still remain to be one of the best cheering squads in our area. Their unique cheers have thrilled crowds through football and basketball seasons. Under the direction of Ms. Baker, the cheerleaders provide school spirit for our fans and teams. This year, the cheering squad participated with the marching band in the collections of canned foods for needy families on Thanksgiving. The Captains this year are Lillian Rivers and Toni Drew.

Stevens Technical Enrichment Program (S.T.E.P.)

I was selected by the head of guidance at the West Side High to attend S.T.E.P. in the summer of 1976 and have been a member for 4 years. During the last 2 years, I was also a member of its Mini-Scholar Program.

The Stevens Technical Enrichment Program is located on the campus of Stevens Institute of Technology in Hoboken, N.J. It is an academic program geared toward the areas of math and science. It does, however, offer courses in art, photography, humanities, and other more liberal studies.

As a student I can say that S.T.E.P. makes students strive harder to achieve their goals. If they have no goals, it helps them to form their goals and gives them know-how to achieve them.

Hassana B. Haqq

Educational Outreach

My future goals are to major in Electrical Engineering and minor in Computer Science.

These goals were first inspired by a summer science program. During the summers of 1976 and 1977, I attended this program which was held at Bell Laboratories in Murray Hill, N.J. There I worked in a laboratory with computers. I began constructing a simple computer with the help of my advisor.

While in school, during my freshman year, I was involved in the RCA program here at P.H.S.

In furthering my "Educational Outreach", I enrolled into two Engineering programs during the summer of 1979.

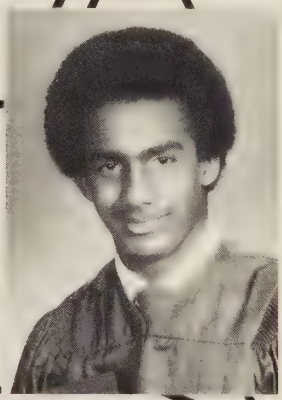

The first was a science and math program at New Jersey Institute of Technology (N.J.I.T.). Here I was introduced to various types of engineering. The program also offered a review or preview to Chemistry and math depending on the student's academic status in high school.

I then attended the M.I.T.E. program on the Bush Campus of Rutgers University in Livingston, N.J. This program also focused on engineering.

My participation in these programs gave me a mini experience of college life. I enjoyed the programs and feel that they were a big inspiration to me in my future goals.

Yolanda Stancil

Mark Henry is a finalist in the 1980 National Achievement Scholarship Program for Outstanding Black Students. Our track star will compete with 1,200 students who are being considered for 325 National Achievement $1,000 scholarships and some 275 four-year achievement scholarships to be awarded this spring.

He has already accepted a four-year scholarship to Harvard from Bell Labs.

Jade Hawkins is also a finalist in the 1980 National Achievement Scholarship Program for Outstanding Black Students. Our Student Council President has also been selected to participate in the Congressional Seminar to be held in Washington, D.C. in April of this year.

Union County College
An Act of Determination

I went to Union County College in Cranford, N.J. to bring up my grades and get more out of Algebra II than I did in High School.

I had this course in my Junior year but I didn't do so well. Because I was determined to do better, I explored the possibility of re-taking this course during the summer. Much to my disappointment I was told that underclassmen were not offered summer sessions. So, I sought to take Algebra II at Union County College.

I completed the course and received an 'A' which proved to be well worth my effort. Furthermore, I concluded that "DETERMINATION" is the center of success.

David S. Trawick

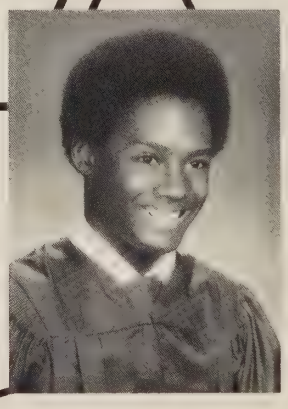

College Course

I also attended Union County College on a part time basis. My course of study was Psychology. By taking this course I obtained 3 credits that will be credited to my college courses next year.

This program, just as the summer sessions, was offered only to seniors. The courses that were available were Psychology, Sociology, English Composition, and Accounting.

I feel that this program was beneficial to me, because it gave me an idea of what college life is really like. Consequently, it has helped to prepare me for college.

Jacquie "Jackie" Wilson

Minority Introduction to Engineering
(M.I.T.E.)

During this past summer I participated in a program called Minority Introduction to Engineering (M.I.T.E.).

This program was very beneficial to me in a number of ways. For one, it helped me to improve my math grade because I learned calculus at a college level. It also helped me decide on a future career field by introducing me to several fields and aspects of engineering.

In addition to the academic component, the social portion was also enjoyable. I was treated as though I were in college and I loved every moment of it. I lived in a coed dormatory which had a large recreation room. I played ping pong, pool, went to dances, and learned a lot at the same time.

Vincent Rountree

Of Excellence

Lafayette Mite Program

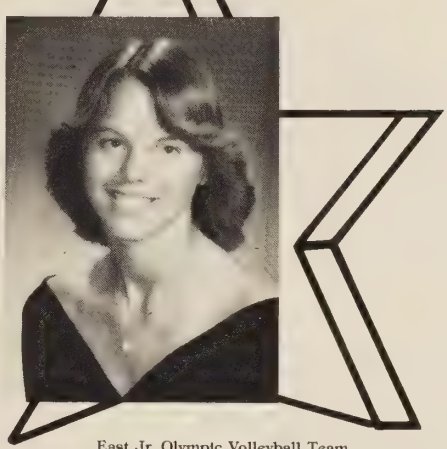

During the summer of my junior year, I attended the Lafayette M.I.T.E. program in Pennsylvania. My participation was mainly in the field of Metallurgy. Also while in the program, I engaged a little in Computer Science.

To study metals in more detail, I visited the Bethlehem Steel Plant. I made little metal soldiers and also tested the strength of different metals by building bridges and towers.

I feel that the experience I obtained from the Lafayette Program has helped me in the preparing of my future goals. It was very interesting but most of all competitive in the challenge to do well.

She has accepted a scholarship from Rutgers College.

Stephanie Talbot

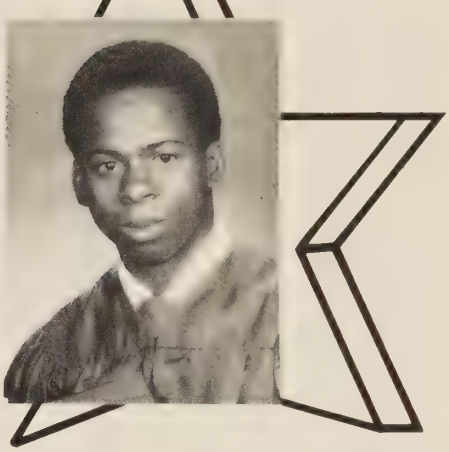

East Jr. Olympic Volleyball Team

I started playing volleyball in Warren, N.J. for Mario Caruso in 1976 and continued for 2 years. I was then asked by Socrates Mosé to try out for the East Jr. Olympic Team in New York. As you can probably guess, I made the team.

The team, ran by Socrates Mosé, went to volleyball camp for 6 weeks of training during the summer of 1978 and 1979.

Eventhough I was put through vigorous training for 8 hours or more a day, went to several different tournaments a week, and rarely got enough rest, I truly enjoyed the experience of training to be a volleyball star.

Susan Madsen

The Coast Guard, established in 1790, is a small elite group of men and women dedicated to helping others. Search and Rescue is the primary mission, and by utilizing air and sea units, assistance is given to those in need. The Coast Guard also assists in polar explorations and aid in law enforcement. Also operated by the Coast Guard are Long Range Navigation (LORAN) stations and several bo tender to aid all sea going vessels.

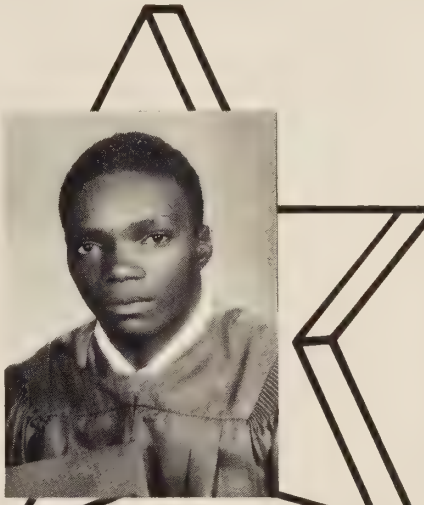

I became interested in the Coast Guard program because I wished to learn, travel, and help others.

Elliott Townsend

Marcia Foster, the high scoring Lady Cardinal, has become the third basketball player in the history of Plainfield High School to score 1,000 points in a career.

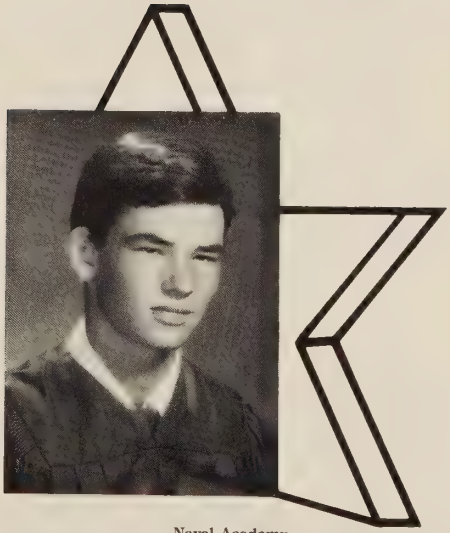

She has accepted a four year basketball scholarship to Seton Hall University.

National Basketball Team
1,000 Points!

Kenny Fields has been selected to play in the Easter Classic All-Star Basketball Tournament April 4-5 in Chicago, Illinois. At present Kenny has been highly recruited by over 150 colleges and universities throughout the country. Kenny Fields has also made 1,000 points in his P.H.S. basketball career.

Recently, Kenny was named to the Converse All-American National Basketball Team. He has decided to attend Seton Hall University.

Naval Academy

Christopher Flood, has been appointed to the U.S. Naval Academy. An outstanding student and member of the Plainfield High School Swimming Team, Chris will enter the Academy with the Class of 1984.

National Track Record

Dorian St. Clair won the gold medal in the 400 meter run. Her performance was instrumental in bringing a National Mile Relay record to P.H.S.

National Track Record

Gale Counts took the silver medal in the 400 meter run. She also played an important role in the mile relay victory.

Student Sports Awards Assembly
Cardinal Gold

One more award to show off!!

What a captive audience!!

A special recognition assembly was held on Friday, January 4, 1980. The program was student planned and sponsored to promote positive activities of Plainfield High School students. Jade Hawkins, President, Student Council, coordinated the activities. Many beautiful trophies were presented in the following: JAZZ ENSEMBLE, STUDENT COUNCIL, DRAMA CLUB, WOMEN'S BASKETBALL, MEN'S BASKETBALL, WRESTLING, SWIMMING, WOMEN'S TRACK, and MEN'S TRACK.

Plainfield, we revere thee.

"Boy! This is a nice plaque!!"

"Give me a P-L-A-I-N-F-I-E-L-D!!!"

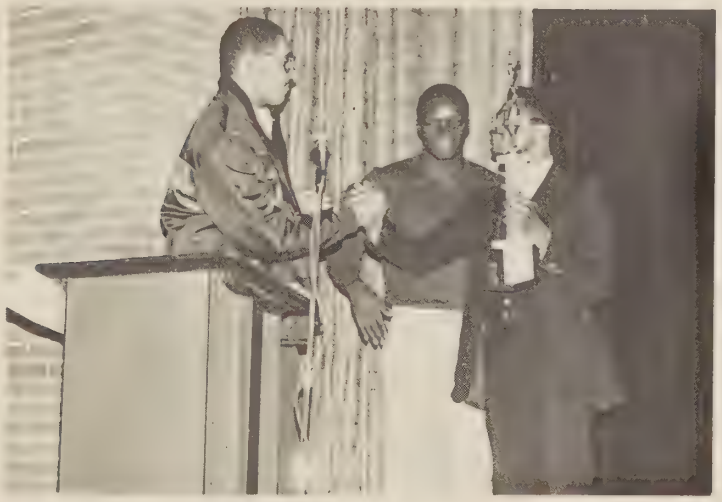

"Aren't we bad?"

CARDINAL GOLD

"Now here's a cheer for ... "

"Congratulations gentlemen for once again defending your title as champions of the X-mas Tournament."

"Hey, y'all!!!"

United States Senate

I would like to thank you for the Plainfield High School sport shirt and Certificate of Recognition that [illegible] to my office. [illegible] your gift.

Senator Harrison Williams
Class of '35

Mr. Frank W. Darish, who resides with his wife in North Plainfield, was born and raised in Plainfield, in the city's west end.

He graduated from Plainfield High School in 1961. While at P.H.S., he was on the swimming team, and, as a senior, was on the Milestone business staff. Through his high school and college years, he worked after school, Saturdays, and summers at Normandy Studio, Watchung Avenue, Plainfield.

A 1966 graduate of Rutgers University, College of Agriculture (now Cooke College), he is a member of Lambda Chi Alpha fraternity.

After college, he taught science and biology at Madison Central High School in Old Bridge, New Jersey for seven years, where, for three years, he was yearbook advisor.

Mr. Darish left teaching when he was offered a position with Normandy Studio which would combine his photographic background, his yearbook experience, and his interest in working with young people.

Mr. Darish works for our senior portrait photographers as a school sales representative, acting as coordinator between the studio and Mrs. Hall and the Milestone staff. He works to maintain communication with all the studio's contract schools' yearbook advisors and staffs, to solve any problems that may arise, to schedule senior portraits and candid assignments, as well as doubling as photographer when necessary.

Assistant Professor of Chemistry — Rutgers University
Dr. Eugene Hall — Class of '69

Each of us at the lunch table sat spellbound while the quiet voice of Gene Hall "Simplified" the intricacies of the recent three-mile island mishap. Science teacher George Tyler, beamed with pride as his former student fielded a barrage of questions with matter-of-fact expertise.

Tusculum college (Tenn.) was Gene's next stop after P.H.S. There he became a Charles Oliver Gray Scholar; and in 1973 he received a B.S. in chemistry.

Continued educational pursuits led him to Virginia Polytechnical Institute and State Univ. (VPI & SU) located in Blacksburg, Va.

In 1978, Gene earned his P.H.D. in Nuclear Chemistry.

Dr. Hall challenged the minds of several P.H.S. students while substitute teaching over a brief period of time from November '78 until March '79.

Currently he is employed as an assistant professor of chemistry at Rutgers University.

In a recent interview with a Milestone reporter, Dr. Hall welcomed the opportunity to assist P.H.S. students at the University. He can be located at Busch Campus in the mornings, and at Douglass College in the afternoons.

Warren E. Henry — Class of '39
Member of high school glee club for 4 years. President of Boys Athletic Association 1938-39 (PHS)

Varsity football team for 3 years as quarterback & running back Varsity baseball team for 3 years as catcher and center fielder. Became the first black member of the ice hockey team. Played first string for 2 years. Member of the swimming team as a freshman.

Entered the armed forces in 1942 and won his Army Air Force wings! Became a member of the original Tuskagee Black Airmen of the U.S. Army Air Force. With the rank of 2nd Lt. he served as a bomber pilot in the 477th Bomb Squadron (all Black) flying the B-25 medium bomber.

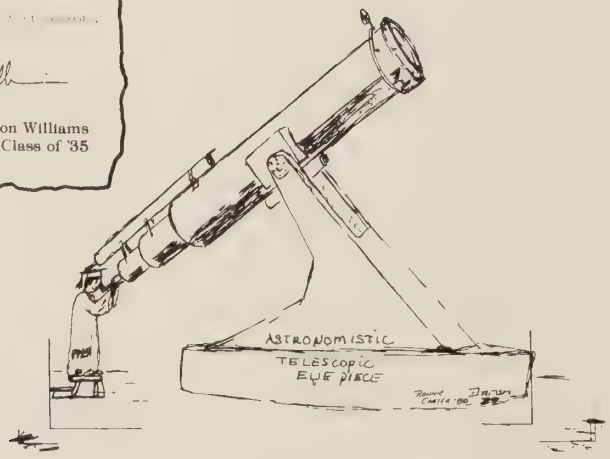

Graduated from Rutgers University in 1951 with a B.S. degree in Physical Education and received his Masters Degree in Guidance in 1958 from Columbia University.

Served as the director of the Good Neighbor Community Center in NYC for 15 years. While at Good Neighbor, he established and directed a summer work pilot project which involved teen-aged gang members in summer employment.

This project led to the later development of the Youth Employment Service (YES) of NYC.

During his directorship at the Good Neighbor Center, his work brought him into contact with many of the teen-aged fighting gangs of East Harlem during the gang war years of the 1950s and the 1960s. From 1960 to 1963, he directed a teen age work camp which serviced members of some of the same gangs.

At present, he is the Director of the Guidance Department of Hubbard School in Plainfield and has been in this position for the past ten years.
Father of Mark Henry — Class of '80.

Model of the Year!
Gretchen Tate — Class of '76

Two years ago at Plainfield High School I was elected to be model of the year. It was the first time I had to compete against 29 or more people. I felt as if I had to let the people know that I was the best for a long time now here was my chance to prove it. The only thing I had to worry about was what to wear. I had to project an image of someone that I admired and if I could I would love to take after her. The image was Ms. Ross (The lady has class!) So I went out and bought some clothes, got my hair cut and was ready for the show.

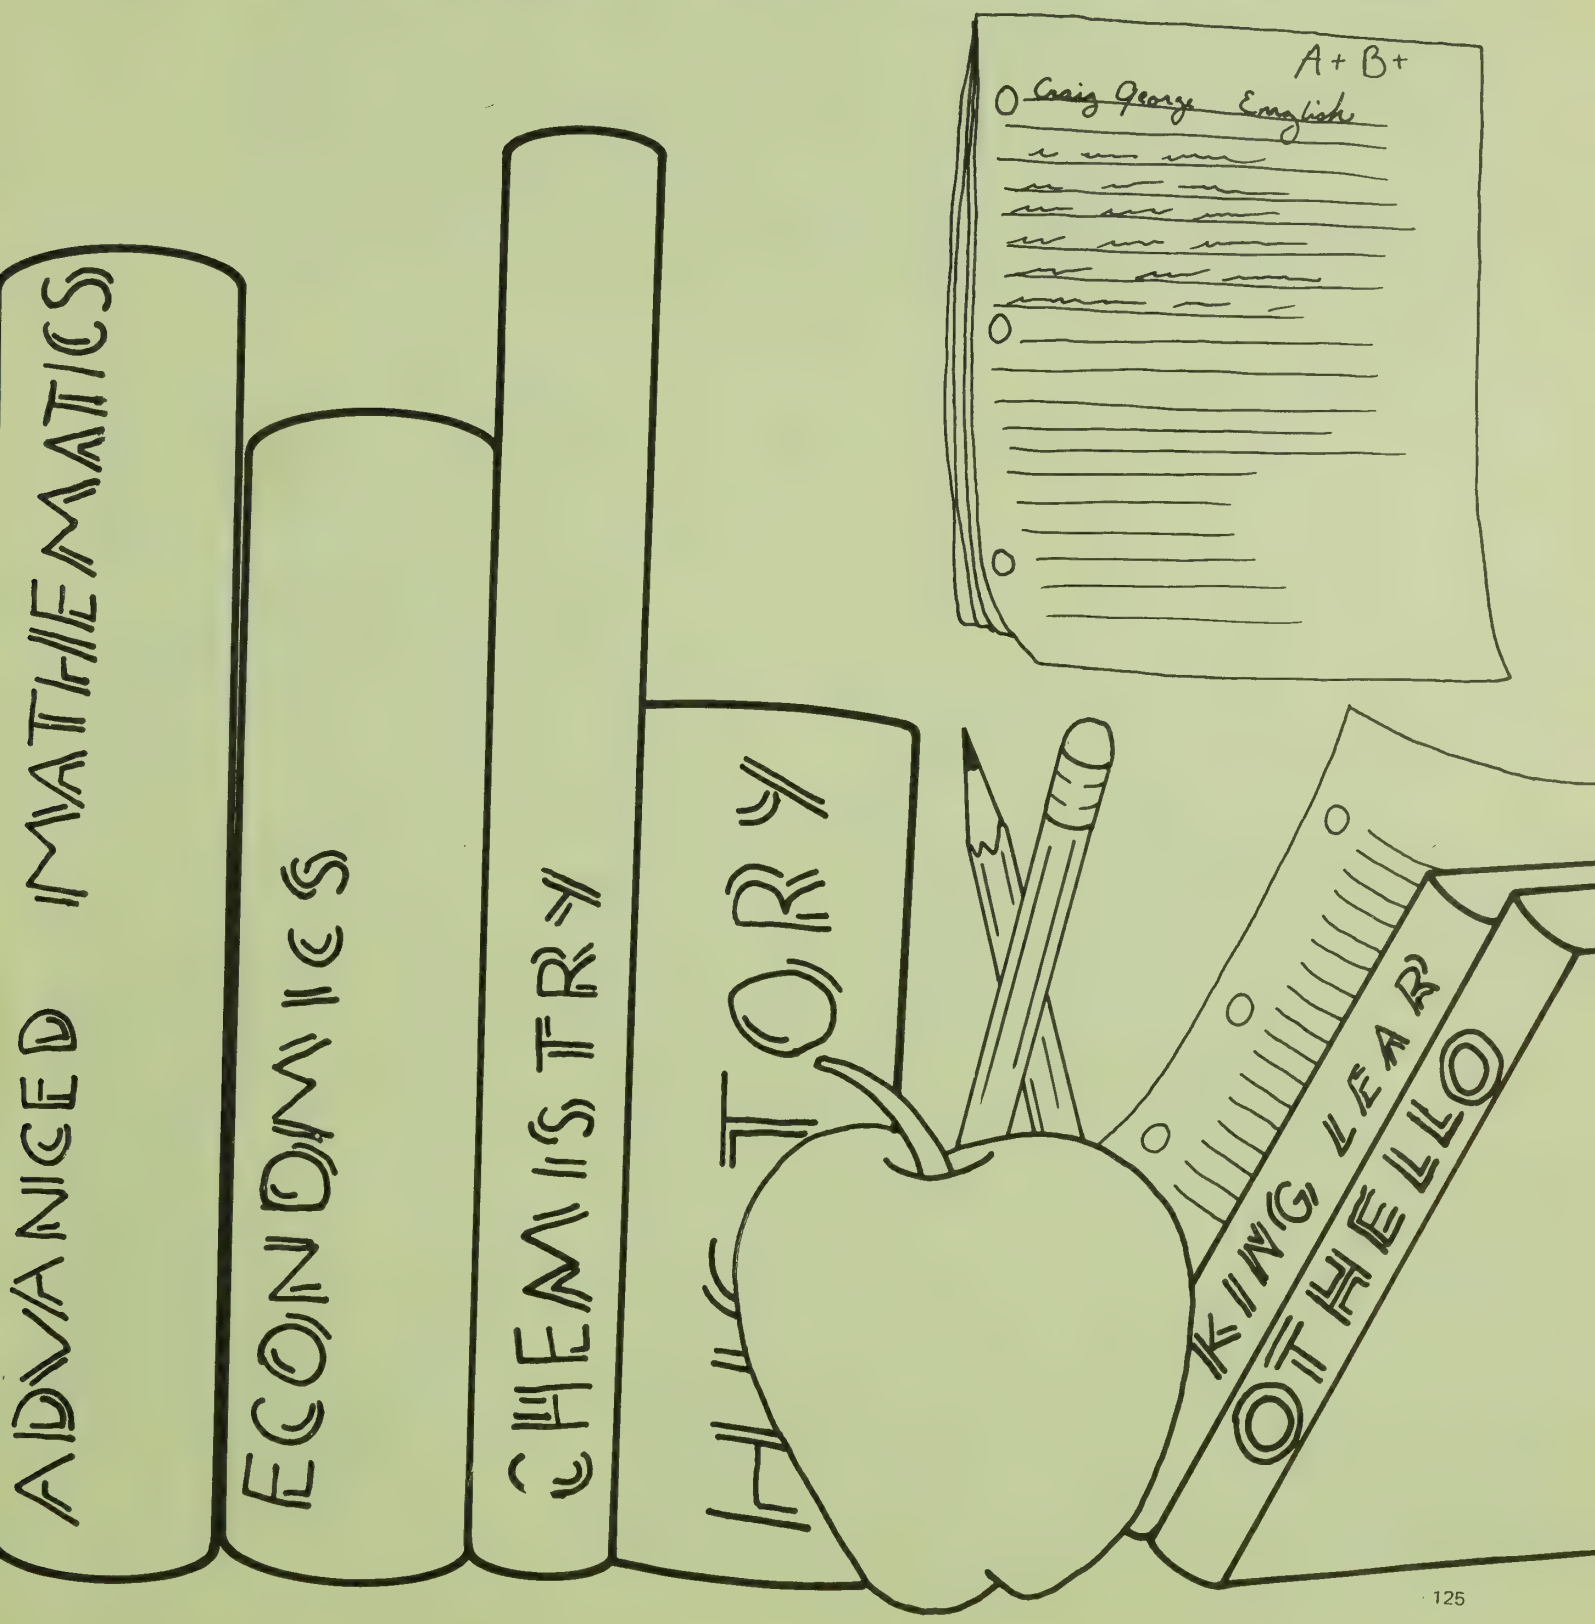

Not too long before the show was about to start one of the girls said that I looked like the image I wanted to project, Ms. Ross. Knowing that I did look like her and, hearing it from someone else I knew I was on my way!

Now besides doing fashion shows I am affiliated with Zur Holographis doing commercials, advertising, photo stock and ed.

NOTE: Graduates of P.H.S. are invited to send us a black and white glossy picture and a personal biography for possible inclusion in future Milestones.

Guidance and counseling are intended to assist individuals in the understanding of self, in making choices that are personally satisfying and socially effective, and in developing responsibility and self-direction. The members of the Guidance Department assist and cooperate with other members of the school staff in helping students recognize and develop their varied abilities.

The Guidance Counselors share with students and their parents the responsibility for choosing their high school programs, for providing career and educational information, and for helping them with personal problems. Counselors attempt to help students know themselves and to plan realistically for their futures.

Foreign Language Dept.

1. Four-year sequentral programs are offered in two modern languages i.e., French and Spanish. In addition, the Language Department offers semester courses for beginning students in both French and Spanish. A two-year sequential program in Latin is offered for students interested in a classical language.
2. The students enrolled in modern language classes have the opportunity to practice and develop their audio-lingual skill in the language laboratory one period a week.
3. Furthermore, the Language Department offers a complete bilingual program in all the academic subjects for Spanish-speaking students who, because of a language barrier, cannot work well in regular English classes.
4. The vocal and instrumental programs are also affiliated with the Language Dept. Voice Culture, Chorus, Music Theory and Band are the subjects taught in the music programs.

The primary goal of business education is to provide instruction that prepares students to acquire, adjust to, and progress in entry-level business occupations. Adaptability, being able and ready to change with change, by necessity becomes an extension of the primary goal. Thus, business education must prepare students to perform competently in specific jobs when they enter business employment. Yet, it must also make the students' preparation general enough to meet the requirements of a variety of related jobs.

Cooperative office and distributive education are special programs that provide the means by which students combine work experience with in-school education. These programs are developed jointly by the school and businesses.

Two national organization Distributive Education Clubs of America and the Future Business Leaders of America provide opportunities for our students to display their leadership and employment skills.

The English Department services the entire student body many times over because of the very nature of it's composition. The English Departments is a triune with English, Reading, and the Library its components.

To meet the multifarious needs and interests of this student body, the department offers courses on the various educational plateaux and encourages electivity according to the student's academic interests and needs. The department expends additional energy in courses underscoring basic skills — Basic Skills — Language Arts, RICCOM, and Reading in Content Areas.

The Elizabeth Chitty Library and the Ninth Grade library house materials for research and leisure reading.

The Physical Education program is designed to provide opportunities for the student to act in situations that are physically wholesome, mentally stimulating and satisfying, and socially sound. A schedule of vigorous physical activities is selected and graded according to the student's needs and interests.

The health program includes basic first aid, classroom driver education, social health, health problems and cardio pulmonary resuscitation.

The Aquatic program is designed to offer a wide selection of aquatic activities to provide knowledge, understanding, skill, and attitudes related to swimming.

The Behind the Wheel Driving course is an elective course and is scheduled before and after school. Practice is conducted on quiet streets, city streets, country roads and highways in order that students may experience a variety of traffic situations.

Teacher Learning Center

I have an idea for a new rule. How about ...

The Plainfield High School Mathematics Program is diversified sufficiently to allow a student to participate in an advanced placement program for college placement, receive a normal High School College Preparatory course, or follow a General Mathematics program.
Provision is also made for students to overcome deficiencies in mathematics a student may have had when he entered high school. Success in either program depends upon the efforts of the student.

This method really works.

The Science Department has 14 full-time teachers plus a Dept. Supervisor who teaches 2 periods per day. The science curriculum consists of 15 courses making up 69 classes. Most of these classes meet 5 periods per week. 15 classes meet 7 periods per week and 1 class meets 8 periods per week. There are about 1800 students taking science courses.

The department sponsors the Earth club (Mr. Wong and Mrs. Boughner), the Chess club (Mr. Samin), the Physicians' club (Mrs. Watt), and the Photography club (Mr. Zullo).

The Social Studies Department offers courses for Plainfield High School students in grades 9-12. We have a department of 15 teachers who teach Practical Politics, World Cultures, Afro-American History, Psychology, Economics, United States History I & II, and Social and Cultural History. A special program is offered, for students interested in the Legal or Political process called the Law and Political Action Internship. Students are involved in a Statewide Model Congress, where students and teachers throughout the State of New Jersey participate in a three day student run version of Washington politics. The class also attends four statewide seminars conducted by the Institute for Political and Legal Education. A unique feature of this program is the internship in Local and County government offices.

The Social Studies Department also participates in a Youth Employment and Training Program where students hired by the Plainfield's Youth Employment Agency are instructed after school in Career and Employability Skills. This is done to keep students in school and offer them Labor Market Orientation.

An Oral history project is another program integrated into the Afro-American history course as well as USH II for teachers interested in working with their classes. Students interview senior citizens for first hand living histories of twentieth century life in Plainfield.

I thought I would never get here.

Two down and one to go. (Lisa Heaney and Susan Wormley)

PLAINFIELD HIGH SCHOOL WOMENS' CROSS COUNTRY 1979 WAS THE MOST SUCCESSFUL SEASON IN THE HISTORY OF THE WOMENS' X-C PROGRAM! The Lady Cardinals swept to an unbeaten 10-0 dual meet record, while they won the Union County and Watchung Conference Championships.

The team was led by Senior Captain Dorian St. Clair and sophomore sensation Patty Mulvaney with the supporting cast of Melody Grisby, Lisa St. Clair, Susan Wormley, Mary Hochreiner and Lisa Heaney.

The hard work and dedication of the ladies, paid off as the Womens' Indoor Track Team was ranked number one. They are the "Class of the State."

Setting new records almost every time they stepped on the track, the foursome seniors Dorian St. Clair, Gayle Counts, and juniors Wanda Jackson and Tracey Nelson repeatedly broke the state record for the mile relay. They established a new national mark in the metric equivalent, while competing in the Olympic Development Meet at New York's Maidson Square Garden.

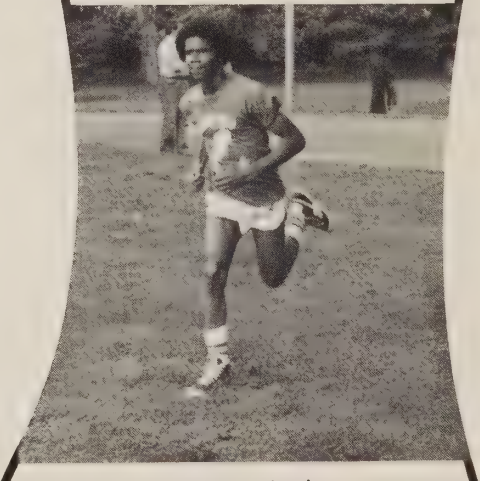

The team won titles almost every weekend as seniors Lisa Myers, Sandi Smith, and Carolyn Smallwood handled the sprints. A group of juniors and sophomores including Susan Wormley, Melody Grisby, Holly Faraone, Mary Hochreiner paced the Cards in the Distance Events. Freshmen LisaSt. Clair, Lisa Heaney and Andrea Johnson exploded on the scene to show a sample of what's to come.

The Lady Cardinals also showed strength in the field events as Gwen Cox, Jennifer Cox, Audrey Counts, Sylvia Cooper and Tracey Carter were consistant winners helping the Cards to team victories and individual recognition.

Over the river and through the woods

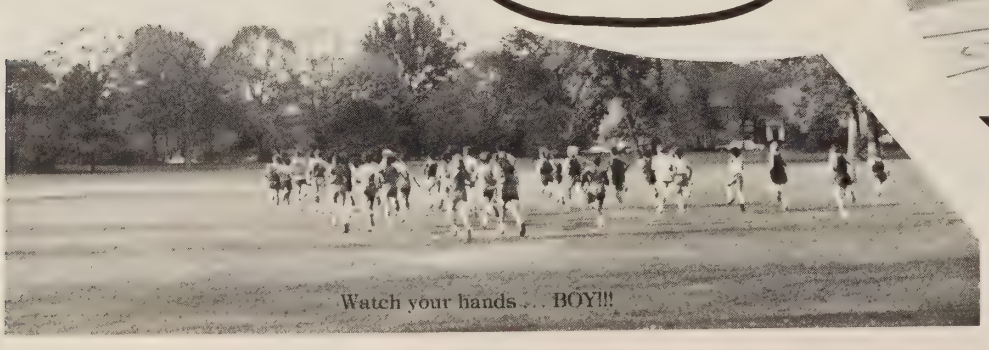

The ability of Plainfield to score in every event made them much in demand at invitationals around the state and throughout the Northeast. THIS WILL TRULY BE A SEASON TO REMEMBER***THE SEASON OF THE RECORDS.

GIRLS' BASKETBALL

The Lady Cardinals continued their winning ways as they captured the Watchung Conference Championship for the 4th consecutive year!!! Led by Marcia Foster, Dee Payne, Sandy Burns, Shielda Smith and Sandy Chambers, the girls won the Mid-Counties X-mas Tournament, and were "The Class of the County."

Once again these Lady Cardinals are one of New Jersey's most highly regarded teams. They proved their excellence in a real thriller when they bumped Union Catholic from its #1 rank in the county.

SINCE TAKING OVER THE BASKETBALL TEAM, COACH HARRY LAMBERT'S LADY CARDS HAVE COMPILED A 70 WIN 10 LOSS RECORD IN FOUR YEARS.

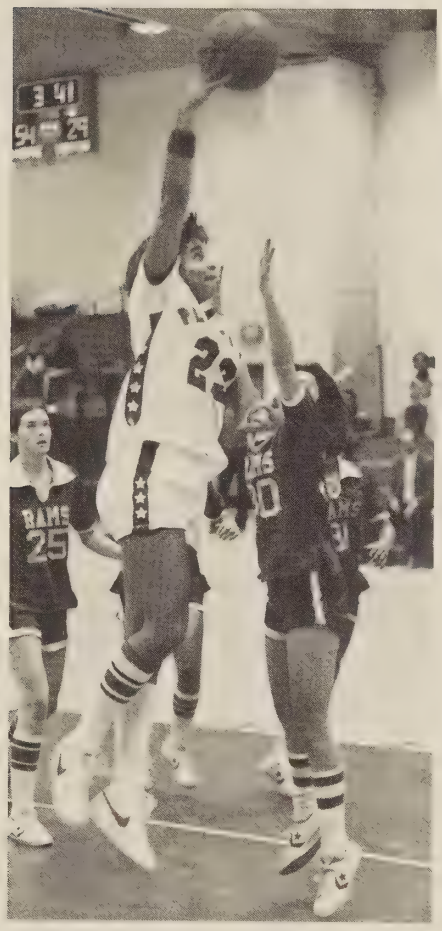

THEIR REGULAR SEASON RECORD FOR THIS YEAR WAS 17 WINS 2 LOSSES.

"I swing better on my toes."

The Lady Cardinal Tennis team began the 1979 campaign with only two members from last year's record setting team. Five of our leaders were playing varsity tennis for the first time. As the season progressed, it became evident that this group would overcome their inexperience with enthusiasm and aggressiveness. At season's end, we had completed the second best season record, (9-7) in our school's history.

Co-Captains Susan Madsen and Tyrania Myers helped first-year Coach Ken Bandomer provide the leadership necessary for such an inexperienced group to succeed.

Seniors who will be missed next year are: Susan Madsen, Corianne and Cathy Mulvaney, Kim Hamilton and Crystal Davis.

Fortunately we will have returning next year a fine group of players with considerable experience.

BOYS' TENNIS

Our last tennis season was educational, though not especially victorious.

The team discovered a number of its weak points and set forth goals in a program for improvement.

Seniors Parish Brown, Vincent Rountree, Richard Lynch, and Anthony Robinson performed well.

Juniors Roger Cassett and John Brown should also be commended for their efforts.

"A Word From A New Coach"

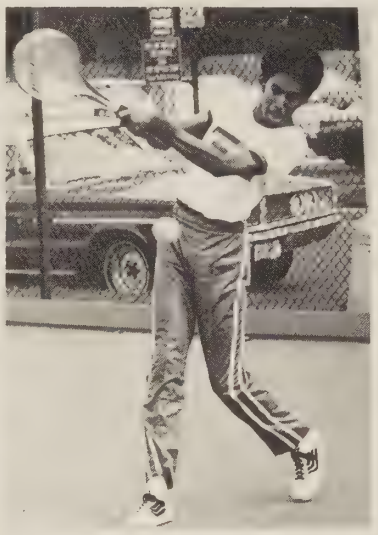

At the time that the Yearbook goes to publication, I will not have had any time to work with the team. However, I wish to express my feelings.

Needless to say, our work is "cut out" for us! There will be untold hours of practice drills that conditions both our physical and mental abilities. I eagerly accept this challenge and look forward to working with the boys of the squad for the new season.

The Cardinals once again reigned "King of Union County Basketball!"

The team rebounded from two early defeats to wind up their regular season with a 17-2 record.

With seniors Kenny "Special K" Fields, Randy Young, Parris Wormley, Greg McCoy, William "Iceman" Johnson, and Mark Smith, the Union County Champions led another great season.

The Cardinals, once again clinched their X-mas Tournament. They also hosted Weequahic in an Eastern States thriller.

The Cardinals are looking forward to defending their county title in the County Tournament. They will go into the state playoffs as Heavy Group IV contenders.

The Sharks!!

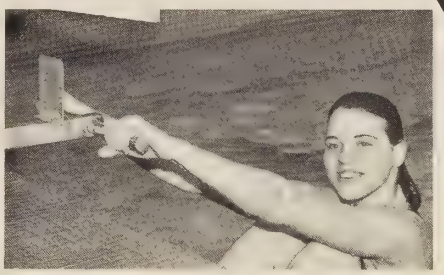

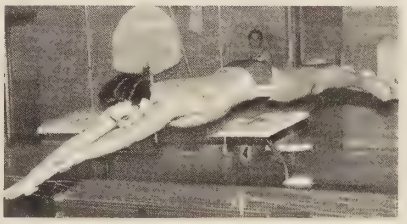

SWIMMING

The Plainfield High School swim team known as, the P.H.S. Cardinal Sharks are ranked #5 in the county.

They held their own against greatly outmatched odds. These sharks truly have the toughest swimming schedule in the state.

The seniors are Chris Flood, Vergil Fuentes, Susan Madsen, Cathy Mulvany, and Vince Rountree. Chris Flood is known best for his 200 yd. Individual Medley. Vince Rountree is one of the best breaststrokers in the county. Vergil Fuentes is best in the butterfly. While both Susan Madsen and Cathy Mulvany are best for the 100 yd. back stroke. Chris Flood holds two school records. This year he broke a 14 year old record in the 200 yd. freestyle event. He also holds the 500 yd. freestyle record. Vincent Rountree holds the 100 yd. breaststroke record. He is the first black swimmer ever to break a record at P.H.S. He has also been undefeated in the regular season. Chris Flood and Vincent Rountree were the co-captains of this years team.

We congratulate the team for its spectacular performances, despite tough odds.

Coach Lewis Wonsidler has really motivated his team.

Indoor Track

This indoor track season is one of the best our team has ever experienced.

The Cardinal runners filled the trophy case! They won the Kearney Relays, Hudson County Coaches Invitational, Union County Relays, Union County Championship, State Relay Championship, Group IV State Championship and placing 2nd in the Johnson and Wales Invitational in Providence, R.I.

The team was paced by our team captains, Mark Henry gave quality performances of 6'8" in the high jump and many other great dashes and hurdle race.

Co-Captain John Marshall dominated the middle distance scene by running one mile relay legs of 48.3 and many mid-1:50's in the 880.

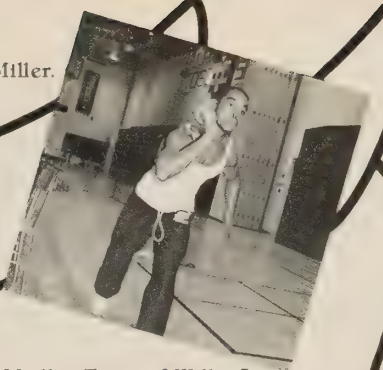

The greatest strength displayed by the team is depth. The key to this depth is the six guys who made up the one mile and two mile relays. They are: Tony Colemen, Dorrel Hilliman, Tony Ashley, Ed Hill, Craig Georges, Fred Jones, and Willie Lawson.

These relay teams are both tops in the state. The one mile relay ran an east coast best of 3:21.5. The two mile relay ran 8:03.6.

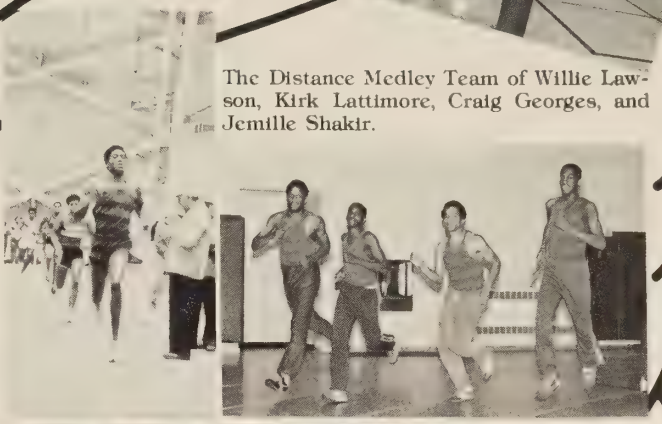

Plainfield High School can be very proud of the 1980 P.H.S. Men's Indoor Track Team.

Coach Ron Upperman

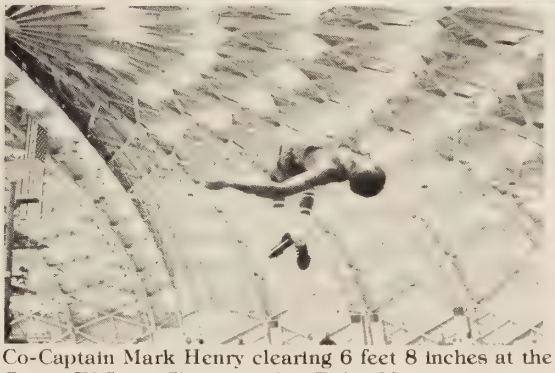

Shot putter Kenny Miller.

The Distance Medley Team of Willie Lawson, Kirk Lattimore, Craig Georges, and Jemille Shakir.

Anchorman Tony Ashley winning the gold in the 880 yd. relay at the Group IV Relay Championship at Princeton's Jadwin Gym.

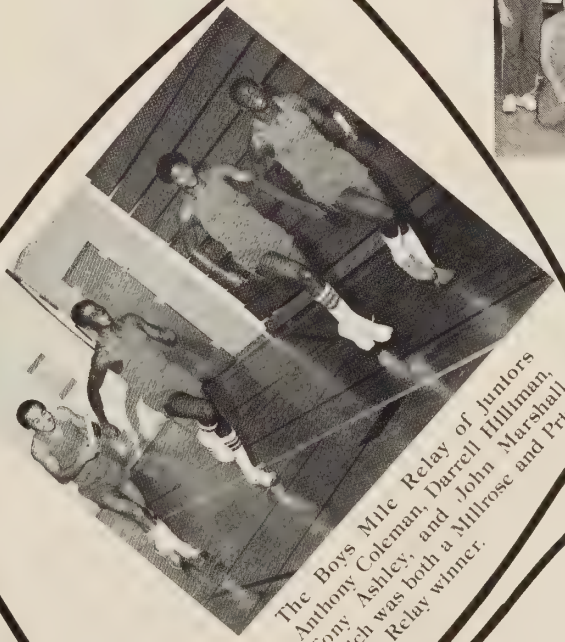

Co-Captain Mark Henry clearing 6 feet 8 inches at the Group IV State Championship Relay Meet.

The High Hurdle Relay of Eric Plummer, Keith Walden, Mark Henry, and Jeff Upperman which won the gold at the County Relays.

The Boys Mile Relay of Juniors Anthony Coleman, Darrell Hilliman, Tony Ashley, and John Marshall which was both a Millrose and Princeton Relay winner.

Senior Craig Georges running his leg of the 2 mile relay at the Princeton Relays.

Distance Coach Bill Klimas with a stack of county medals for Plainfield.

The 07 Champions

Our "Second Home" this season was Princeton's Jadwin Gym!

The hard work and dedication of the ladies, paid off as the WOMENS' INDOOR TRACK TEAM was ranked number one and the class of the state. Setting new records almost every time they stepped on the track, the foursome of seniors Dorian St. Clair, Gayle Counts, and juniors Wanda Jackson and Tracy Nelson repeatedly broke the state record for the mile relay. They established a new national mark in the metric equivalent while competing in the OLYMPIC DEVELOPMENT MEET at New York's Madison Square Garden.

The team won titles almost every weekend as seniors Lisa Myers, Sandi Smith, and Carolyn Smallwood handled the sprints with a group of juniors and sophomores including Susan Wormley, Melody Grisby, Holly Faraone, Mary Hochreiner paced the Cards in the distance events while freshman Lisa St. Clair, Lisa Heaney, and Andrea Johnson exploded on the scene to show a sample of whats to come.

The Lady Cardinals also showed strength in the field events as Gwen Cox, Jennifer Cox, Audrey Counts, Sylvia Cooper and Tracey Carter were consistent winners helping the Cards to team victories and individual recognition.

The ability of Plainfield to score in every event made them much in demand at invitationals around the state and throughout the northeast. This will truely be a season to remember ... the season of the records.

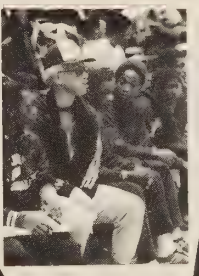

Willie Lawson leads the pack, while teammate Craig Georges watches.

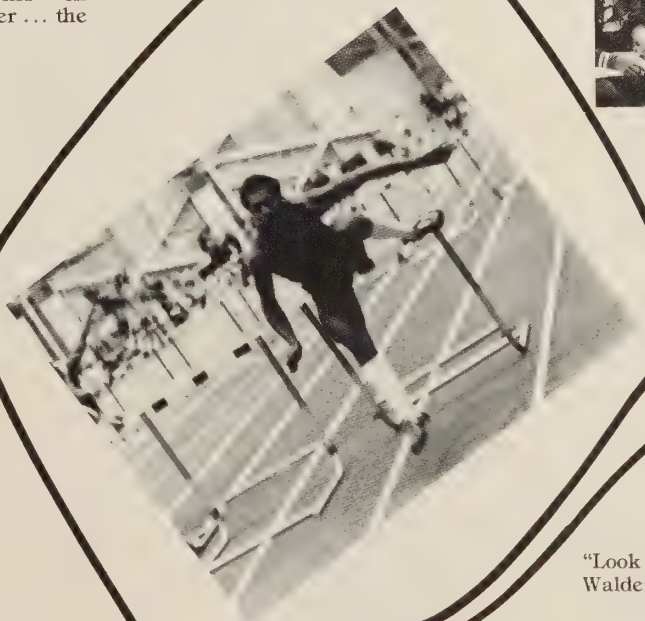

John Marshall runs the winning anchor leg in the mile relay at Jadwin gym.

"Another victory" says Daron Rivers to Cardinal viewers.

Concentration is paramount! (Mark Henry and Eric Plummer of the Hurdle Relay team)

"Look out, here we come!" (Keith Walden in his 60 yard high hurdles)

Girls' Varsity Softball

The Softball Team has a Bright Future at last, under the direction of Coach Chris Robinson.

Led by Jr's Sharon Banks, Tyrannia Myers, Charlene McCoy, Susan Terry and Lana Lanier, this team is definitely on an upward swing.

1979 ... A VISIT TO HEARTBREAK CITY ...

The 1979 season was going to be one of the best seasons ever. Was ... is a mighty big three letter word. INJURIES is an even bigger word and the one word any athletic team hopes to stay away from. Injuries caught us this past year and we were forced to pass through Heartbreak City.

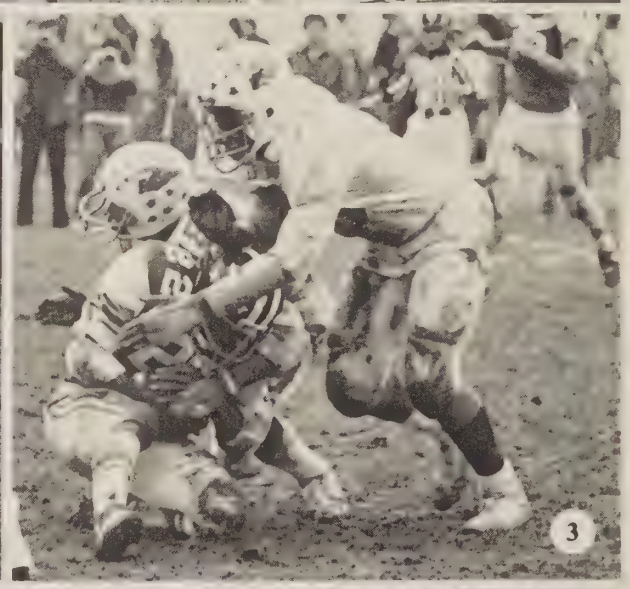

We did have some outstanding play in our four victories. Randy Young's outstanding catch against Camden. Ken Fields super 80 yard TD vs. Camden ... actually running on one leg and all heart. Pat Belgrave coming up from the secondary and making great tackles throughout the season. Clarence Edwards being turned into an offensive tackle after playing mostly fullback for his career and doing a great job. Odel Hines carrying two and three tacklers on his back as he broke through the line. Greg Plummer making a fine catch of a Geofrey Plummer pass and scoring a 31 yd. TD vs. Hamilton West. Eric Plummer starting for the first time vs. Westfield and doing a great job in that thriller. Bruce Schenek improving as the weeks went by and ending his career with a great game vs. Westfield. Carl Wade developing into a great defensive end. Reg Moorman filling in for the injured Kent Montford and playing real steady ball. Anthony Coleman going all the way on the kick-off return vs. Camden. Ted Theodosatos making key third down tackles to stop Westfield. James Felton playing his steady game in the defensive secondary as did Randy Wood. John Marshall playing and showing his great potential for the future as a defensive safety. Steve Jackson playing defensive tackle vs. Camden the way it suppose to be done. Winfred Keaton playing a great guard until his injury. James Parris becoming the starting offensive center and not allowing anyone to take the position away. Pierre Loizeaux making two key fumble recoveries in two of our four victories. Thurman Thomaston making his crushing tackles on kick-off coverage. Eddie Southgate playing his usual steady offensive guard and being the only starting offensive lineman to start the first and last game. Henry Fudge, Kevin Robinson, Donald Dixon and Anthony Ashley making their mark during the season especially in our victories.
